Specifications

Keyboard	88 keys, Graded Hammer (GH)
Tone Generation	4-level AWM Dynamic Stereo Sampling
Pure CF Sampling	YES
Key-Off Sampling/ Stereo Sustain Sampling	YES
Damper Resonance	YES
Polyphony (Max.)	128
Voices	17
Reverb	4 types
Brilliance	3 types
Effect	4 types
Dual	YES
Split	YES
Metronome	YES
Tuning/Transpose	YES
Scale Tuning Types	7 types
Song Recording	2-track recording/playback, 3 User Song
Preset Songs	7 Demo Songs, 50 Piano Preset Songs
Jacks & Connectors MIDI	IN/OUT
MIDI Headphones	2 (stereo 1/4" jack)
Pedals	Sustain Pedal, AUX Pedal
AUX OUT (Variable)	L/L+R, R (1/4" jack)
USB TO DEVICE	YES (song data storage)
Amplifiers	12W x 2
Speakers	(12 x 6) cm x 2
Dimensions (W x D x H)	1,334mm x 351mm x 140mm (52-1/2" x 16-13/16" x 5-1/2")
Weight	18.6 kg (41 lbs.)
Color	P-155: Black with Mahogany top-board P-155B: Black with Ebony top-board
	P-155S: Silver with Cherry top-board
Included Accessories	Sustain Pedal (FC4 Foot Switch), Music Rest, Owner's Manual,
	Quick Operation Guide, AC Power Adaptor (PA-301)
Optional Accessories	L-140 Stand for P-155/155B
	L-140S Stand for P-155S FC3 Sustain Pedal with Half-Damper Effect
	FC4/FC5 Foot Switch
	FC7 Foot Controller
	Specifications subject to change without notice.

Optional Accessories

Foot Pedal

Foot Switch

FC3

FC7

Step Up to Premium Yamaha Touch & Tone

Whether you're practicing at home or away, performing solo or in a band, the Yamaha P-155 digital piano offers professional quality sound with our legendary piano touch. Thanks to the top-shelf Yamaha digital piano technologies like advanced sampling methods and the ultra-expressive GH (Graded Hammer) keyboard, musicians don't have to choose between portability and piano quality—the quality you expect from a company that's been building world-class acoustic pianos for over a century. In the P-155, Yamaha crafts that heritage into a slim cabinet available in three contemporary finishes.

P-155S

Dynamic Expression, Realistic Sound

Hand-crafted Pianos, High-quality Voices

To ensure the finest grand piano sound for the P-155, we went straight to the source: Yamaha's finest 9-foot concert grand, a hand-picked CFIIIS. Next, a master piano technician painstakingly tuned and regulated the CFIIIS to sonic perfection. Then we applied our Pure CF Sampling technology to accurately capture every aspect of the CFIIIS sound, keeping post-processing to an absolute minimum to maintain sonic integrity throughout. The result is a truly authentic grand piano sound with powerful, dynamic bass, warm mid-range and crystal-clear highs.

Layer Upon Layer

Using Yamaha's Dynamic Stereo Sampling (DSS) technology, the incredibly natural 4-level piano sample is a breakthrough achievement for digital pianos. It means that, depending on how hard you strike a note, you will hear one of four piano recordings on each and every key for an unprecedented level of dynamic range and tonal expression. Playing softly doesn't simply lower the volume; it produces the quiet recordings of piano notes. And likewise, playing more forcefully triggers separate samples at different levels.

Ascension to Detail

If you close your eyes while playing a grand piano, you'll find its sound is a bit more complicated than "note-on-note-off." Yamaha has gone to great lengths to capture these sonic artifacts in the P-155. These meticulous efforts include recording a felt damper coming to rest on a vibrating string when a note is released [Key Off Samples], or reproducing the sound of the open strings that wash over your performance when using the damper pedal [Stereo Sustain Samples and Damper Resonance].

A Touch Above

Look inside the lid of a grand piano. Different sized strings require different sized hammers. Different sized hammers have different weights. The keyboard of the P-155 utilizes Yamaha's GH (Graded Hammer) technology to reproduce the true "feel" of a grand piano keyboard action, with heavier touch in the lower keys, lighter touch in the higher keys, and subtle gradations of weight and response throughout. Thanks to the input of concert-level, professional pianists during its development, the GH keyboard features superb balance and remarkable consistency. Performing or practicing on a GH keyboard properly develops and maintains an artist's technique for making the transition between P-155 and an acoustic grand.

Perfection Made Practical

As a full-featured digital piano, the P-155 gives you all you need for practice, playing and performance. It has an internal high-power, two-channel (12W + 12W) amplifier-with high-performance speakers built-in-letting you and your audience hear the authentic sounds in their full glory. Is your audience on another continent? Share your musical ideas and masterpieces easily with others by recording your performance to any attached USB storage device. Songs are stored as Standard MIDI Files (SMF) and can be emailed to and played back on any Mac or PC.

* USB storage device is not included

Two standard front-panel
