- More than 2000 ft
  - Contact YCA to discuss. More than 1 VSP-2 system may be required.

WHAT LENGTH OF WALL SPACE DO YOU WANT TO PROTECT?

- Less than 100 ft
  - In this scenario...
    100 ft requires 8 speakers
    50 ft requires 4 speakers
    25 ft requires 2 speakers
- More than 100 ft
  - Contact YCA to discuss. More than 1 VSP-2 system may be required.

WHERE DO YOU WANT TO INSTALL SPEAKERS FOR THE SPEECH PRIVACY SYSTEM?

- Ceiling Grid
  - The VSP-2 Speakers include a T-bar mount adapter for placement when using a hung ceiling with regular ceiling grid and ceiling bars.
- Wall
  - The VSP-2 Speakers include an installation plate that allows installing on hard surfaces or walls. It is required to drill into the surface to attach the installation plate.
- Hard Ceiling
- Other
  - Contact YCA to discuss your install.
