

# NEW Marching Percussion

30 years of marching percussion history and leadership in design is now coming to life.

Yamaha proudly introduces a new lineup of marching percussion featuring maple shells. Years of industry-leading research with the world's top drum and bugle corps have led to the development of marching percussion instruments with improved hardware performance, increased tone projection, and exemplary articulation, demonstrating why Yamaha is the number one brand of marching percussion in the United States.

## 9300 Series Marching Snare Drums

- Chrome hardware is now a standard hardware option
- 6-ply maple shell, constructed using the Yamaha Air-Seal System™, adds warmth and projection
- Snare-side aluminum insert ring insures stable tuning platform for Kevlar™ drum heads
- Gravity Guards™ help maintain tuning settings when set against the bottom rim
- Exclusive to Yamaha, three removable feet eliminate damage to the bottom components when placed on rough surfaces

MS-9313 available with standard hardware only.

MSS-9214 and MS-9214 available in both chrome and standard hardware

## 8300 Series Marching Toms

- 7-ply 6 -8" and 6-ply 10 -14" maple shells constructed using the Yamaha Air-Seal System™
- Aluminum reinforcement rings provide a stable tuning platform (8" -14" toms)
- Unique to Yamaha "X-deep cut" is now standard allowing for increased tone and resonance
- Time-tested 45-degree bearing edge provides articulate projection
- Black stain inner shell finish for all Forest colors completes a totally finished appearance
- 2.3mm thick, steel Ultra-Hoop™, specially designed by Yamaha, protects the bearing edge
- Light, die-cast aluminum lugs with a unique arch-shaped center, an original Yamaha design, decreases surface-to-surface contact between the shell and lug, permitting the shell to vibrate freely

Available in both small and large configurations for trios, quads, quintets, sextets SUMO

## 8300 Series Marching Bass Drums

- 7-ply maple shells, constructed using the Yamaha Air-Seal System™, allow for mid and low-range projection that creates a warm resonant tone
- Graduated air holes improve sustain and player feel
- Time-tested 45 degree bearing edge provides articulate projection
- Hardware performance upgrade ensures easy tuning throughout competitive tuning ranges
- Maple hoops ensure stable tuning and provide natural bass drum tone
- Light, die-cast aluminum lugs with a unique arch-shaped center, an original Yamaha design, decreases surface-to-surface contact between the shell and lug, permitting the shell to vibrate freely
- Claw hook design reduces the stress on the tuning bolt under high-tension situations to ensure greater tuning stability, easy turning and less damage to the hoop

Available in ten different sizes from 14" to 32"
