Please Note:

Push the mute deeper in the bell following the instructions of manual attached manual.

When inserting and removing the instrument with mute to/from the case, put in/out the instrument keeping the instrument parallel to the shape of the case.

Please Note

In some cases, the Pickup Mute™ may not fit instruments that have significantly different bell diameters and/or shapes. Please check before purchasing.

The Pickup Mute™ is not compatible with Marching Mellophones, Marching French Horns, Alto (Tenor) Horns, or Baritones.

The SILENT Brass™ mute for Trombone (SB5J) and the Pickup Mute™ (PM5X-2) are not compatible with Alto Trombones.

The SILENT Brass™ mutes for Flugelhorn (SB6J) and the Pickup Mute (PM6X) protrudes 3-4 cm from the bell.

For information on compatibility with Yamaha brass instruments and cases please refer to the "Compatibility Table".

Always remove the Pickup Mute™ from the instrument if the instrument is to be stored for an extended period of time.

Do not connect the PHONE jack to a microphone input jack (or combined mic/line input) on a computer, etc., that also supplies power to the connected device (plug-in power).

Please note that Brass Resonance Modeling™ is only available when the STJ Personal Studio™ is combined with a PM3X/5X-2/6X/7X Pickup Mute™.

It is not available with any other Personal Studio™ or Pickup Mute™ models.

AA batteries are not supplied. Please purchase separately.
